Key 1 - Series 2
Edited 2019

The Key: The Sanctuary

The Sanctuary is the key that opens
the Mystery of the Biblical Calendar.

The Sanctuary: A Complete System of Truth

“And let them make me a sanctuary; that I may dwell among them.” Exodus 25:8.

*“Thy way, O God, is in the sanctuary: who is so great a God as our God.”
Psalm 77:13.*

The Sanctuary is indeed the most **complete, connected, and harmonious** system of Truth of the whole Bible. In the Sanctuary, the calendar is revealed. 4

The Sanctuary Calendar: **Luni-Solar Reckoning**

The Sanctuary calendar was based on:

1. the **Lunar** cycle (moon) of 354 days
2. the **Solar** cycle (sun) of 365 days
3. the **Barley** Harvest Season.

The New Year:
**New Moon Horned Crescent
and Ripened Barley**

In the Sanctuary,

1. the **New Year** always started with the **New Moon Horned Crescent** or **New Month** in the Spring,
2. combined with the **Barley** being ripened in **April**.

Hebrew Reckoning: **Ingenious, Elegant Method**

Scaliger, a well known chronologist of the 16th century, declared the method of [Hebrew] reckoning as “the most **ingenious** and most **elegant** of all systems of chronology.”

The Grace Amadon Collection, Crucifixion Date, Part V, page 6, (emphasis supplied).

Meaning of Abib: **Barley is Ripe**

The first month of the Hebrew year – Abib meaning Barley is ripe – pointed to the season of Barley. In Exodus 9:31, 32, Moses gives a very important detail under the 7th plague:

*“And the flax and the **barley** was smitten: for the barley was in the ear, and the flax was balled [**beginning of April – Common Year**]. But the wheat and the rye were not smitten: for they were not grown up.” [**until June**].*

All Scriptures: King James Version, (emphasis supplied).

Hebrew Calendar Regulation: Month by the Moon, Year by the Sun and Solar Season

Sidersky wrote: “The aim of the Mosaic command was to regulate the months according to the course of the **moon** and the whole year in accordance with the course of the **sun** -- by assigning as a starting point the lunar month coinciding with the beginning of a determined **solar season.**”

Sidersky, Chronology of the Jews, page 615, (emphasis supplied).

The Solar Season: Barley

Luni-Solar Barley Harvest Calendar

“That determined **solar season** was still the **barley** harvest in the time of Christ.”

The Grace Amadon Collection, Crucifixion Date, Part V, page 7, (emphasis supplied).

Passover Festival: Ceremony of the Barley

“The ceremony of the **barley** was the **divine rule** by which the position of the month [Abib] was located. If by the first of [Abib], the barley was not sufficiently advanced for the Passover festival, then a **leap-month** was added, and the feast period of the **year** was **delayed** until the following month.” [Intercalation – Embolismic Year]

The Grace Amadon Collection, Crucifixion Date_{p1}
Part V, page 8, (emphasis supplied).

Firstfruits Festival: **Based on Barley**

“Moses commanded that they should not even reap their **barley** until the **first fruits** of it had been offered to the Lord at the time of the Passover.”

Waved Barley Sheaf at Firstfruits:
Sixteenth of the first month, according
to Leviticus 23:11.

The Grace Amadon Collection, Crucifixion Date,
Part V, page 7, (emphasis supplied).

Control of the Year: **Barley Harvest Rule**

“By this rule [Barley Harvest], we know that the [Abib] paschal moon could not come until the rains were over and the barley ripe... in Palestine, ...March is the month of the latter rain, and that **barley ripens in April.**

...Scaliger says that in the time of Christ the **paschal moon** limits were April 8 and May 6.”

The Grace Amadon Collection, Crucifixion Date, Part V, pages 8, 9, (emphasis supplied).

The Sanctuary Calendar:

Appointed Times - Feasts of Leviticus 23 Numbers 28 and 29

1. Passover - 14th **first** month (Abib)
2. Unleavened Bread - 15th - 21st **first** month
3. Firstfruits - 16th **first** month
4. Pentecost - 9th **third** month
5. Trumpets - 1st **seventh** month
6. Day of Atonement - 10th **seventh** month
7. Feast of Tabernacles - 15th - 22nd **seventh** month

The Feasts of the Sanctuary: **Luni-Solar Barley Harvest Mosaic Law Calendation**

“Three conditions:

- (1) the **ending** of the **latter rain**,
- (2) the regular period of the **ripened barley**,
and
- (3) the **fulling** of the **one moon** possible in that limited time after the first week in April exactly determined the paschal feast and all the other festivals of the [Hebrew] year. The results were dependable and specific...” [Common Year]

The Grace Amadon Collection, Crucifixion Date,
Part V, page 21, (emphasis supplied).

Change of the Hebrew Calendation: **After the Destruction of Jerusalem**

...after the dispersion of the Jews,
‘The Sanhedrin did not content itself
to observe the maturity of the
barley, but **added** to it the observation
and calculation of the **equinox.**’”

The Grace Amadon Collection, Crucifixion Date, Part V,
pages 7, 8, (emphasis supplied).

Christ observed the: **Luni-Solar Barley Harvest Calendar of the Sanctuary**

- Christ is the fulfillment of the Sanctuary
- And all the appointed times according to the Luni-Solar Barley Harvest Mosaic Law Calendation
- See **Key 2: Christ in the Sanctuary**
